

CTE Lab in Health Science: High School

Foundational Standards

- 1 Incorporate safety procedures in handling, operating, and maintaining tools and machinery; handling materials; utilizing personal protective equipment; maintaining a safe work area; and handling hazardous materials and forces. F.1**

- 2 Demonstrate effective workplace and employability skills, including communication, awareness of diversity, positive work ethic, problem-solving, time management, and teamwork. F.2**

- 3 Explore the range of careers available in the field and investigate their educational requirements and demonstrate job-seeking skills including resume-writing and interviewing. F.3**

- 4 Advocate and practice safe, legal, responsible, and ethical use of information and technology tools specific to the industry pathway. F.4**

- 5 Participate in a Career and Technical Student Organization (CTSO) to increase knowledge and skills and to enhance leadership and teamwork. F.5**

- 6 Demonstrate effective infection control techniques as defined by the Centers for Disease Control and Prevention (CDC) and The Joint Commission guidelines. F.6**

Occupational Expertise

- 1 Demonstrate expertise in a specific occupation within the Health Science cluster. 1**
 - a Meet benchmarks selected by the instructor from the appropriate curriculum frameworks, based upon the individual student's assessed needs. 1.A
-

Research and Presentation

- 2 Conduct investigative research on a selected topic related to health science using approved research methodology, interpret findings, and prepare a presentation to defend results. 2**
 - a Select an investigative study based on research and prior knowledge. 2.A
 - b Collect, organize, and analyze data accurately and precisely. 2.B
 - c Report, display, and defend the results of investigations to audiences that may include professionals and technical experts. 2.C

3 Demonstrate higher order critical thinking and reasoning skills appropriate for a career in health science. 3

- a Use mathematical and/or scientific skills to solve problems encountered in the chosen occupation. 3.A
 - b Locate, evaluate, and interpret information related to the chosen occupation in oral, print, and digital formats. 3.B
 - c Analyze and apply data and/or measurements to solve problems and interpret documents. 3.C
 - d Construct charts, tables, or graphs using functions and data. 3.D
-

Leadership

4 Apply leadership and professional career skills needed in health science careers. 4

- a Develop and deliver a professional presentation offering potential solutions to a current issue. 4.A
- b Demonstrate leadership and career skills in job placement, job shadowing, entrepreneurship, or internship, or by obtaining an industry-recognized credential of value. 4.B
- c Participate in leadership development opportunities available through HOSA–Future Health Professionals and/or professional organizations in the health science field. 4.C
- d Demonstrate written and oral communication skills through presentations, public speaking, live or virtual interviews, and/or an employment portfolio. 4.D
