

Exploring Engineering and Technology (2019)

Demonstrate employability skills required by business and industry. MS-ENGR-EET-1

- A** Communicate effectively through writing, speaking, listening, reading, and interpersonal abilities. MS-ENGR-EET-1.1

- B** Demonstrate creativity by asking challenging questions and applying innovative procedures and methods. MS-ENGR-EET-1.2

- C** Exhibit critical thinking and problem solving skills to locate, analyze and apply information in career planning and employment situations. MS-ENGR-EET-1.3

- D** Model work readiness traits required for success in the workplace including integrity, honesty, accountability, punctuality, time management, and respect for diversity. MS-ENGR-EET-1.4

- E** Apply the appropriate skill sets to be productive in a changing, technological, diverse workplace to be able to work independently and apply team work skills. MS-ENGR-EET-1.5

- F** Present a professional image through appearance, behavior and language. MS-ENGR-EET-1.6

Demonstrate proper safety techniques and tool usage in the Engineering and Technology Laboratory MS-ENGR-EET-2

- A** Accurately interpret and adhere to safety signs, symbols, and labels. MS-ENGR-EET-2.1

- B** Demonstrate and incorporate safe laboratory procedures in lab, shop, and field environments. MS-ENGR-EET-2.2

- C** Identify, select, and use appropriate Personal Protective Equipment (PPE), follow work area organization procedures and follow Standard Operating Procedures (SOP) when performing work. MS-ENGR-EET-2.3

- D** Identify, select, and use appropriate tools and machines for specific tasks. MS-ENGR-EET-2.4

- E** Demonstrate safe use of tools and machines. MS-ENGR-EET-2.5

Identify engineering and technology and its

- A** Explore the historical impacts of engineering & technology MS-ENGR-EET-3.1

impact on society MS-ENGR-EET-3

B Examine the effects of engineering & technology on society including social, cultural, political, economic and environmental impacts. MS-ENGR-EET-3.2

C Assess the impact(s) of technological products and systems. MS-ENGR-EET-3.3

D Demonstrate an understanding of the Universal Systems Model. MS-ENGR-EET-3.4

Apply the Engineering Design Process to generate a solution to hands-on design challenges. MS-ENGR-EET-4

A Examine the engineering design attributes MS-ENGR-EET-4.1

B Demonstrate the principles of research and design MS-ENGR-EET-4.2

C Use math and science to create solutions to engineering problems MS-ENGR-EET-4.3

D Utilize the engineering design process MS-ENGR-EET-4.4

E Use and maintain technological products and systems MS-ENGR-EET-4.5

F Apply the Universal Systems Model to existing systems MS-ENGR-EET-4.6

G Utilize an Engineering Notebook as a record of process MS-ENGR-EET-4.7

Examine and research careers in fields related to engineering & technology. MS-ENGR-EET-5

A Investigate educational requirements, job responsibilities, employment trends, and opportunities within engineering and technology career pathways using credible sources. MS-ENGR-EET-5.1

B Investigate earnings potential for engineering & technology careers MS-ENGR-EET-5.2

C Identify gender and diversity related issues in engineering & technology careers MS-ENGR-EET-5.3

Explore how related career and technology student organizations are integral parts of career and technology education courses. Students will develop leadership, interpersonal, and problem-solving skills through participation in co-curricular activities associated with the Technology Student Association. MS-ENGR-EET-6

A Explain the goals, mission and objectives of CTSO organizations. MS-ENGR-EET-6.1

B Explain how participation in career and technology education student organizations can promote lifelong responsibility for community service and professional development MS-ENGR-EET-6.2

C Demonstrate teamwork, leadership, interpersonal relations, and project management skills. MS-ENGR-EET-6.3
