

# Grade 5

## Communication and Collaboration **CC**

- 1 Collect and document evidence to share information with others in charts, tables, presentations or text. 5.CC.1**

---

- 2 Communicate the solution(s) of a problem/analysis either orally, visually, or in writing, including process steps, findings or conclusions. 5.CC.2**

---

- 3 Identify and implement roles and responsibilities to collaborate in various group settings (i.e., online, onsite and/or hybrid) and situations. 5.CC.3**

---

- 4 Communicate specific constraints and criteria established for an investigation. 5.CC.4**

---

- 5 Critique or support methods, investigations, or arguments using evidence-based reasoning. 5.CC.5**

## Data Analysis and Measurement **DM**

- 1 Determine appropriate measurement tools to perform measurements, calculations, and conversions (e.g., fractions, decimals, pounds, perimeter, area, volume, central tendency) defined in grade level content standards to analyze real-world scenarios. 5.DM.1**

---

- 2 Construct visual representations defined in grade level content standards (e.g., bar graphs, charts, line plots) to determine patterns, using digital tools when possible and feasible. 5.DM.2**

---

- 3 Evaluate reasonableness of observations, results, and solutions throughout processes. 5.DM.3**

---

- 4 Choose data sets and analysis methods to support the inquiry process. 5.DM.4**

## Inquiry-Based Approaches and Problem Solving **IPS**

- 1 Plan and conduct an investigation to answer a specific question or solve a specific problem. 5.IPS.1**

---

- 2 Decompose a complex problem into smaller steps or sequences to evaluate (e.g., what should be done first, second). 5.IPS.2**

---

- 3 Determine one or more viable solutions using data and information to resolve a scenario given criteria and constraints. 5.IPS.3**

## Applications and Modeling AM

- 1 Apply symbols and relationships (e.g., place value, equations, operations) to represent physical or conceptual objects (e.g., letters, numbers, or displays of color may represent objects).** 5.AM.1
- 2 Create a model showing a subsystem as part of a larger system.** 5.AM.2

## Information and Digital Literacy IDL

- 1 Identify and evaluate the impact of technology when selecting tools to solve a problem in order to determine the most effective solution.** 5.IDL.1
- 2 Review and compile information from multiple sources to solve a problem.** 5.IDL.2
- 3 Describe how solutions or technologies are adapted to meet the changing needs and wants of individuals or communities.** 5.IDL.3
