

PCC D - Natural Resources & Environmental Systems

Analyze and explain the connections within sustainable AFNR systems. [D1](#)

1 Analyze and explain the connections within sustainable AFNR systems. [D1](#)

Describe natural resource stewardship which supports sustainable AFNR systems. [D2](#)

2 Describe natural resource stewardship which supports sustainable AFNR systems. [D2](#)

Evaluate and develop solutions for AFNR impacts. [D3](#)

3 Evaluate and develop solutions for AFNR impacts. [D3](#)

Demonstrate knowledge of biochemical and cellular processes as they relate to AFNR systems. [D4](#)

4 Demonstrate knowledge of biochemical and cellular processes as they relate to AFNR systems. [D4](#)

Examine and explain environmental hazards to promote safety. [D5](#)

5 Examine and explain environmental hazards to promote safety. [D5](#)
